PROJECTS

Training By A2Z Infotech
- I pick up a lot of new technologies, such as JavaScript, HTML, CSS, and React Js.
- An e-commerce website provides customers with the convenience of shopping from anywhere and at any time without the need to physically visit a store. This can lead to increased customer satisfaction and loyalty.
- Technology Used : HTML, CSS, JavaScript,PHP

Hospital Management Website
- The primary goal of such a website is to facilitate better management of hospital resources, improve patient care, and optimize overall workflow.
- healthcare professionals can efficiently schedule appointments, access patient information, and coordinate care plans seamlessly.
- Technology Used : HTML, CSS, JavaScript,React Js, PHP

Real Time Commercial Website For Small Startup's
- A real time website hosted on intelliJ.
- Useful for small startup's which is easy to understand for any nontechnical person also.
- simplify the process of using this website.
- Technology Used : HTML, CSS, JavaScript

SKILLS

Programming Language	C, Java, Python
